“ *I apologize for how late this memory is. Dr Barron was my favorite professor and inspired me in several ways. His descriptions of small towns throughout Texas and his love for culture I still share with friends and family. I'm so glad he followed the path of Geography, or as he told us his father described it: "that old map stuff" because it's influenced my life in so many ways.*

“ Dear Cynthia and Elizabeth,

*I knew Cody as my Geography professor at Sam Houston long before I knew you. He was such a respected and well liked teacher. And, yes, Elizabeth, as I have told you before, "He was very good looking!"*

*I met both of you when Elizabeth started school years ago. I can recall over the years hearing love in your voices each time you talked of Cody. Both of you will miss him so much, but you have made so many wonderful memories together that those will be a comfort to you in the days ahead.*

*Both of you can also be comforted in knowing how proud he was of you and how well you cared for him during his illness.*

*I am sorry that I was not able to attend the services, but I hope to see you soon for one of our little chats. Take care of each other!  
Hugs to you both, Vergie*

“ My condolences to Cody's family. As interesting a man as you could ever hope to meet, with a great sense of humor. My wife and I were expecting our son at the time and were having a hard time coming up with a name. After meeting Cody, the issue was resolved. Cody Cottrell was born September 18, 1973.

“ Dear Cynthia and Elizabeth,  
What a wonderful example both of you are to those who become caretakers. Cynthia, you taught us the meaning of "in sickness and in health." Elizabeth, you are the teacher of "honor thy father.."

*The times ahead will not be easy but your faith and the prayers of friends and family will help. Please consider our family as one of those friends.*

*With Christian love, Sue, Karl and Jimmy*

“ Dear Cynthia and Elizabeth,

*Please accept my condolences on your loss. Cody was a wonderful colleague and I know his students loved his many stories about Texas. I will always remember the fieldtrips he organized to Galveston and the way in which he wove together fun and interesting facts about Texas geography.*

*Sincerely,*

“ To: The Barron Family. I am sorry for your lost. There is hope for Brent. At John 11:25 where Jesus said: "I am the resurrection and the life. The one who exercises faith in me, even though he dies, will come to life; To "a new earth that we are awaiting according to his (Jehovah God's) promise in these righteousness is to dwell."-2 Peter 3:12.
