“ Donna and I met in Kindergarten and then learned that we lived around the block from each other. It was an immediate friendship that turned into a sisterhood spanning 55 years. I grew up with Patty, Donna and "the boys" - her parents were like mine. Later in life, Donna met Troy - what a great pair. I was so happy that my dear friend had met someone so special with whom to share her life.

Donna and I loved to reminisce about the mischief that we got into as kids and all the fun that we had. I remember each time report cards came out, our parents threatened to put us into separate classes because while our grades were always good, our conduct was not and we often got an "U" in conduct for unsatisfactory because we could not/would not stop talking to each other. I will miss Donna's great smile and mischievous , fun-loving nature. The world turned a little dimmer when she left us, but I know that we will be together again. Until then, I miss you my friend.

“ What a special person and a massive loss. All the times I have been around Donna I never ever saw her upset or angry or in a bad mood. She was always smiling. And she had that slight sneaky twinge in her eyes as she looked over her cards held close to her face. And what a Texas Holdem player, always taking my chips. The world is a little less shiny with her gone. I know my world is. Love ya Troy. God bless.
