“ *To: The Family of Frank E. Yeager*

You may not remember me, but I worked with Frank at the VCM Plant with Shell and with Oxy as well and whenever we reflected on days gone by, we always spoke of Frank. (He used to call himself "5F" which stood for "Fast Flying Fat Fingered Frank.) Many of the men that he worked with are still here at the VCM plant (Danny Williams, Vic Rebecek, Richard Taylor, David Jack, Nick Nichols). As a matter of fact, I am writing this while working the night shift (Thursday night - Friday morning), so unfortunately, I can't be there.

I was saddened to hear of Frank's passing, but I'm sure that you know, as I do, that he is in a much better place. Our thoughts and prayers are with you in this difficult time. And if you need us, just call (281.476.2060). May God continue to bless and keep you.

“ Thank you for the time that Frank spend with Willow - she always looked forward to those visits. Willow is not much of a "lap" dog, but from her first visit with Frank, she snuggled in his arms. Although he mostly talked with her, he, on occasion, would tell me when we were leaving to "take care of his girl."

He checked on her health - on one visit, after holding her, he announced that he believed she was getting fat. Everyone laughed. He was right, so Willow had to cut back a bit.

Once we missed a visit and when we visited the next week, Frank told me he had worried because the weather had been bad (lots of rain and thunder)and he worried about Willow.

We will miss him.

We are very sorry for your loss.
