“ I worked with Mark for a short while on projects for Telsta Network Services doing Fiber jobs. I attempted to find him numerous times over the years and am really sorry I discovered his whereabouts so late. My sympathies to his family and all his friends. Mark was a steady and productive partner and we had many laughs and meaningful conversations during our short time together. I have missed him all these years and now miss him more. I'll catch you on the other side, Brother.
