“ Jeff was a dear friend. He was the ultimate gentleman and had a giving heart. He selflessly worked many hours to help my family negotiate the best oil lease. He always had some great oil stories and experiences to share. One of my favorite memories was a trip that Laney, Jeff, James and I took to San Miguel Di Allende, Mexico. What fun exploring the town and the surrounding area together! My husband's favorite "Buieism" was that Jeff swore you could always go 5 miles over the speed limit if you are in the right lane- they won't stop you in that lane. I will truly miss him.

He told me the same about staying in the right lane at +5 MPH when I was learning to drive. He let me drive while returning from a hunting trip in Beeville, probably because he stayed up late playing cards. Thanks for the wonderful comments. Jeffrey
