“ *I realize that it has now been two years since Mr. Reilly's passing, but I just recently found out and I wanted to reach out to the family and express my condolences. I worked for Ken for 2-years, from the spring of 1985 through the spring of 1987. During that time he was the owner and President of Argyle Energy Company a small Oil & Gas Exploration and Production Company, located in Houston, TX. Those were difficult times to be in that industry (Oil prices dipped to below \$10/bbl during that period), but for a very small company we did have some successes and a little fun along the way. I appreciated the opportunity that he gave to a young Petroleum Engineer and I did learn a lot under his leadership. God Bless. Johnnie Butler (Franklin, TN)*

“ *I am saddened by our loss of such a terrific person. I attended Judge Reilly's courses for 13 years and I know he was a man of great integrity. He spoke so highly of his daughters every year we met in class. His wisdom is alive in my life...*

“ We knew Judge Reilly for just about 4 years, as a casual acquaintance. He represented himself as a thoughtful, well-spoken, respectful and extremely intelligent man - passionate re the 'causes' he championed. Our Del Lago community will miss him.

“ Ken was such an integral part of live at Del Lago residential area. He was always interested in helping to improve our relationship with the Resort and make our lives better. I served on the Board with him for a couple terms. He was also well respected in Montgomery where he served as municipal judge. I am sure he ruled his court with a measured hand.
