AN

“ To Linda’s family –

Linda’s passing has been a big shock to me. Linda and I would talk almost every week about something including her family. I was Linda’s computer support and whenever she had any computer problems she would call me and ask for help. And every time we ended our conversations she would always say “Send me a bill” and I never would because I felt she was more a friend than a customer. She was so proud of her “Big” truck and was looking forward to building her new house on the lake. She had plans to make an extra room for a person to take care of her in her old age. She shared so many stories with me regarding her travels up north, her business adventures and her daughters that made her happy. The last time I spoke with her she was telling me about her health issues and something in my mind told me to call her. I kept calling and calling for a week and I finally called and talked to Len who gave me that sad news. I just wished I could have talked to her one more time. Linda was a sweetheart and always put those close to her first. She was very ambitious and never sat down to rest. Always going and going like the Eveready Bunny. I will dearly miss her and our conversations together. May she rest in peace.
