

Meghan Elizabeth Humphries Speer

August 21, 1981 - July 8, 2018

Meghan Elizabeth Humphries Speer was born on August 21, 1981 in Roanoke, VA. On July 8, 2018, after a difficult battle with ovarian cancer Meghan entered into the presence of her precious Savior and Lord whom she loved with all her heart and lived for passionately. She graduated from Baylor University and was employed by Texas Health Resources as a physician recruiter.

On August 23, 2003 she married the love of her life, Andy Speer. As their love grew so did their family. The Lord gave them two amazing children, Noah (8) and Matti (4). Andy as an amazing husband, cared for and loved Meghan selflessly and unconditionally. His love and commitment to her will never be forgotten.

Megan is also survived by her parents, Phil and Kim Humphries, her brother Justin and his fiancée, Deana; nieces Grace and Sophie and nephew Cooper; cousins Jeremie and wife, Tabitha, Nic and wife, Amber, Angie and husband, Mike, Josh and wife, Amanda, Gina and husband, Chris, Annelise and husband Leighton, Erin and husband, Carl and Kristen and husband, Clayton. Meghan's wonderful extended family also includes her in-laws, Noah and Pat Speer; sister-in-law, Gloria, her husband Leif Nelson and their children Benjamin and Josephine; and sister-in-law, Elizabeth Speer. There are a large number of young children and other family members who are part of Meghan's

life, too numerous to mention but well loved.

Meghan was an incredible gift from God. She loved passionately, served faithfully, gave sacrificially and made those around her laugh with delight. She was the light of her family. She was an incredible organizer, planner (especially trips and vacation) and friend to so many. As a wife, mother, daughter, a sister and a friend she was wonderful beyond measure.

Donations may be made to the National Ovarian Cancer Coalition at “ovarian.org” in Meghan’s name.

A memorial service was held July 14, 2018 in Richardson, TX.
