“ *I worked with Nancy briefly at TDCJ-IT and in the short amount of time that I knew her, she was an extremely funny and outgoing person that kept us laughing since we never knew what she was going to say. I've missed her in the time that passed in our office, but I was happy for her to be retired. Our thoughts and prayers are with the family during this time. God Bless You and Yours All of Your Days.*

Nancy was a classmate of mine. We all got a little inebriated at a party back in HS. I drove her and her Opal home. Her parents must have never forgiven me as we never spent time together after that.

“ *I first met Nancy before she and Wayne married. I can not begin to count the times when her smile, her bubbly attitude, and her obvious love for life made a less than pleasant day for me turn into a good day. Nancy must have had the same effect on many others. I count myself as fortunate to have been able to know and love Nancy.*

Wayne, You and Nancy had something special that many are not privileged to know. I share in your grief at your loss. When you are talking to her, which I know you will, remind her of the enormous positive impact she had on people and how much she was loved by the many lives she touched during her life.

“ Wayne. I met you, years ago. while I was working at Sherwin-Williams and you would come in to buy paint. Years later. I wound up in a cubicle next to Nancy. We worked with Debbie Randolph in the same section and Nancy was always willing to help me. I remember talking about Butch, the Dalmation, many times. Those days hold good memories for me. It is sad to me that Nancy had such a struggle her last few years.. We work so hard to retire and that's when health issues start coming faster. She was too young to lose her, but I think she is finally where there is no sadness or illness, but only joy.
