DW

“ I worked with Vicki for many years at Shaw/ Technip. One thing that I loved about her was her beautiful, beautiful smile.

Vicki was very smart and organized and she helped keep me "together" when work was backing up and I was stressed out. She had so much experience in the field that I could always rely on her to tell me what the appropriate response should be in a given situation.

We shared similar health issues, so we understood each other. We knew when to give the other space, and support.

She very much loved her husband and family. She often told stories of her family "back home", and how she enjoyed her visits home.

I haven't seen or spoken to Vicki since she started her job at Kroger, so I didn't know she was ill. I am so sorry I didn't keep touch like I should have. I'm praying for her, and her family. Someone special has gone from us. God bless and keep you.
