“ *My dear sister....I can still hear your voice...and I am missing you so much. I know you would have loved your Memorial Service....and been so proud of Megan,you certainly would have been crying with tears of joy as she read "Foot Prints in the Sand" a story that met so much to you. And of course Michelle,(your childhood friend),who spoke of your sensitive,giving,and caring spirit. I don't think you understood just how much we loved you,and only wanted the best for you in life. Well my dear,I know you are at peace now,and I also know that we will see each other again..so until then,I will hold you close to my heart.*
